

## Dear Travelers,

It's exciting to realize that we have been sharing the wonders of the Azores with travelers since 1982. Our escorted tours are unique. We arrange the special events, meals of regional foods and folklore programs, that will enable you to experience the turn-of-the-century way of life of the friendly Portuguese. We take care of the details for you.

Each area of Portugal has its own personality and special character. The Azores, discovered over five centuries ago, reflect beauty and a pastoral way of life. On this year's tour, we visit the five most popular of the nine islands. We will be in Terceira for the start of the very exciting Sanjoaninas festival. The month of June is the best time to see the blue hydrangeas that cover the hillsides.

Make your dreams come true in 2012. Join us for this special trip and enjoy Portugal's wonderful undiscovered Azores!
